

## HOME VISITING

Do you sometimes feel you spend too much time on your own and might welcome getting to know someone who could come and see you regularly at home for a chat? Maybe it is simply that you are not the sort of person who likes group activities but would really enjoy making friends with just one person.

FISH has Volunteer Home Visitors who are police checked, ready and waiting to be matched with people who would appreciate their visits.

If you think you might be interested in having a Home Visitor please get in touch with me via the FISH Volunteer Centre in Sonning Common. The office is open every week day from 9.30 to 11.30 and messages can be left on the answerphone at all other times. I would come and see you at home and tell you more about Home Visiting. If you were interested in going ahead I would take careful details about you, your background and interests and try and match you with a Visitor with some things in common.

Sue Nickson

FISH Home Visiting Coordinator
