

Finding your way around the Royal Berkshire Hospital

Wards and departments

The hospital is spread out over a large area so please be aware that it may take up to 15 minutes to walk to some wards and departments. Please take this into consideration when allowing time to get to your appointment.

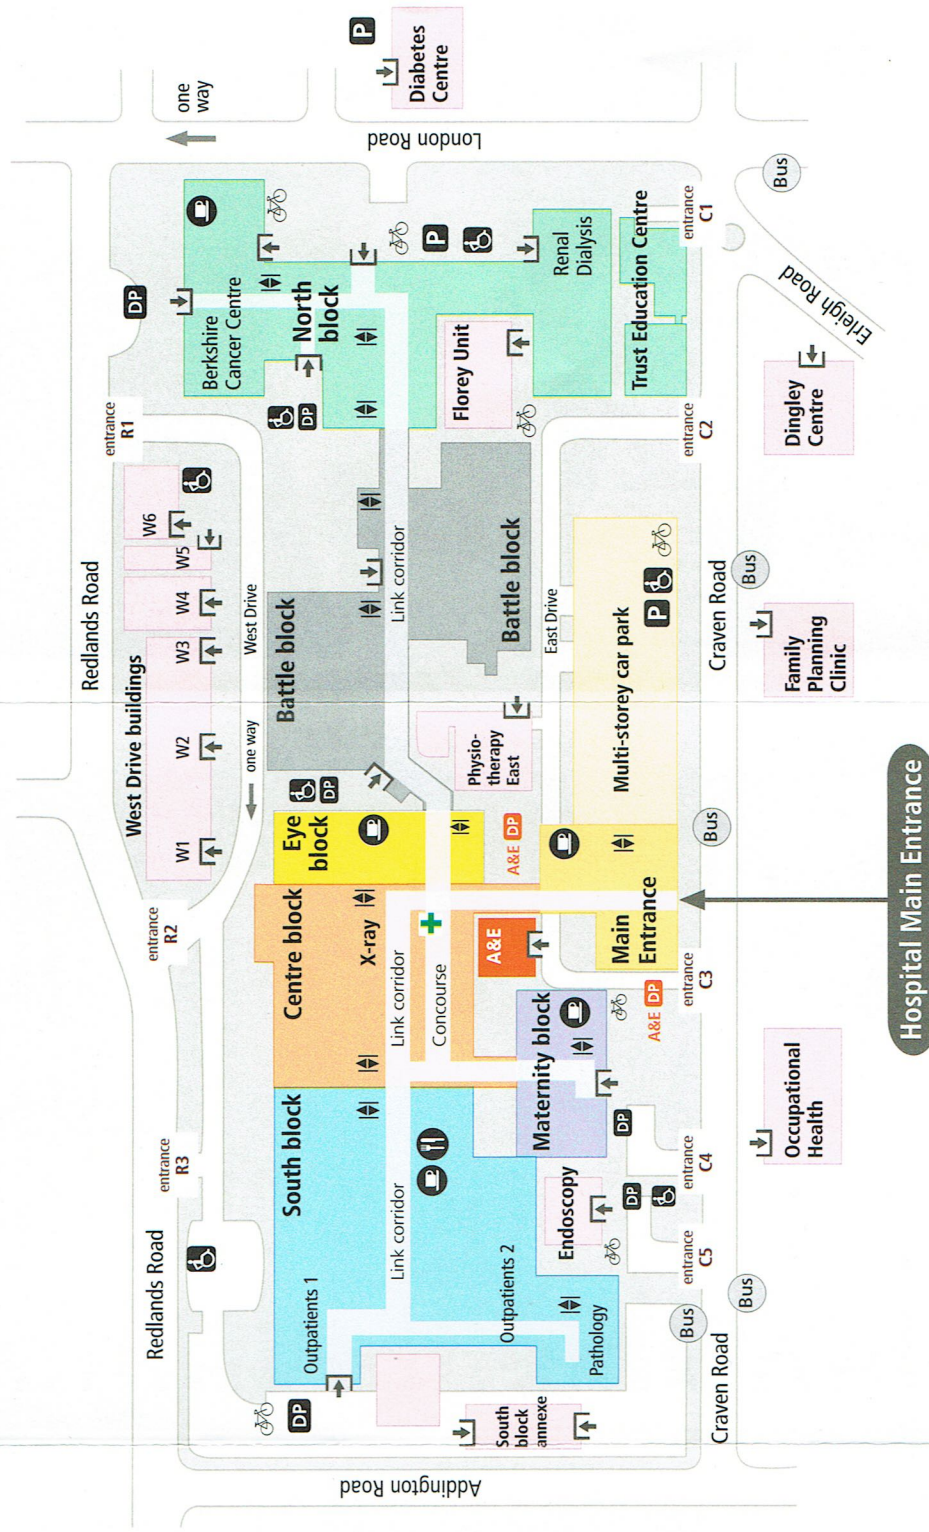

Hospital levels

The hospital wards and departments are located over several levels. Please use this guide to direct you to the relevant block and floor level.

The wards and departments are listed below according to the block or building they are in. **Please go to the block indicated. Wards and departments are signposted within each block.**

The lists also give the floor level that you need to go to. For example 'Calcot Ward • 3' means that 'Calcot Ward' is on Level 3 of (in this case) Battle block.

If you are using the multi-storey car park, all wards and departments can be accessed from Level 2.

For assistance or more information please ask at Reception in the Main Entrance (level 2)
